

DIGI-TALKS

BE PART OF OUR TEAM

WE ARE LOOKING FOR STUDENT VOLUNTEERS

WHO ARE WE

Digi-Talks consists of a group of creative and committed students from several different Danish universities. Through a wide variety of initiatives, such as hosting events and offering insights through our news feature on our website, and our social medias, we seek to create awareness about the impact of digitalization in society and business for university students.

THE POSITION

As a member of Digi-Talks, you will help create awareness about digitalization and bridge the gap between the university and the job market. You will gain experience from a number of different tasks, including settlement, development and planning of events, communication with speakers, internal coordination in an organization, and social media work.

WHAT WE OFFER

We offer a fun and creative volunteer job where you can combine your interest in digitalization and technology with event coordination. On top of that, we will provide you with the tools to inform and enlighten students about the future society and job market, ultimately giving you the chance to shape and empower the university students of today and tomorrow. Thus, becoming a member of Digi-Talks will give you a unique experience across different universities, that can not be obtained anywhere else.
